

RID IT DEODORIZING KIT

DESCRIPTION:

Introducing Technician's Choice® TEC286 Rid-It Deodorizing / Sanitizing Kit. A new generation of chlorine dioxide odor removal. Fast one hour treatment, consistent delivery by tablet that increases the PPM (parts per million) to almost double that of the leading competitor!

DIRECTIONS:

Under optimal temperature conditions, prepare vehicle for kit according to specifications on the direction sheet. While wearing glove, remove tablets from foil and place in tin. Add water to the black fill line, exit the vehicle and let run for one hour. Always refer to the direction sheet for specific instructions.

OUTSTANDING FEATURES:

- VOC/OTC Compliant
- Fast, One 1 Hour Treatment Time
- Consistent Delivery, Easy to Use
- Strongest Chlorine Dioxide Odor Remover System Available
- EPA # 89389

AVAILABLE SIZE(S):

- (6) 4-pack Case

Serving the Automotive Industry since 1969
