

ANTI-SCALER CONCENTRATE

DESCRIPTION:

Introducing Technician's Choice® TEC243 Anti-Scaler Concentrate... designed to remove any scale build-up in the carpet extraction equipment.

DIRECTIONS:

Use one (1) gallon of concentrate to 20 gallons of warm water. Circulate solution through the system for five (5) to ten (10) minutes to remove any scale build-up. Flush out the system with warm water. Repeat procedure if necessary.

OUTSTANDING FEATURES:

- Bio-degradable
- Concentrated
- Economical
- Excellent anti-scaling properties
- Leaves no sticky residue

AVAILABLE SIZE(S):

- (4) 1 – Gallon Case
